

Sustainability Prospector™ Sample Database

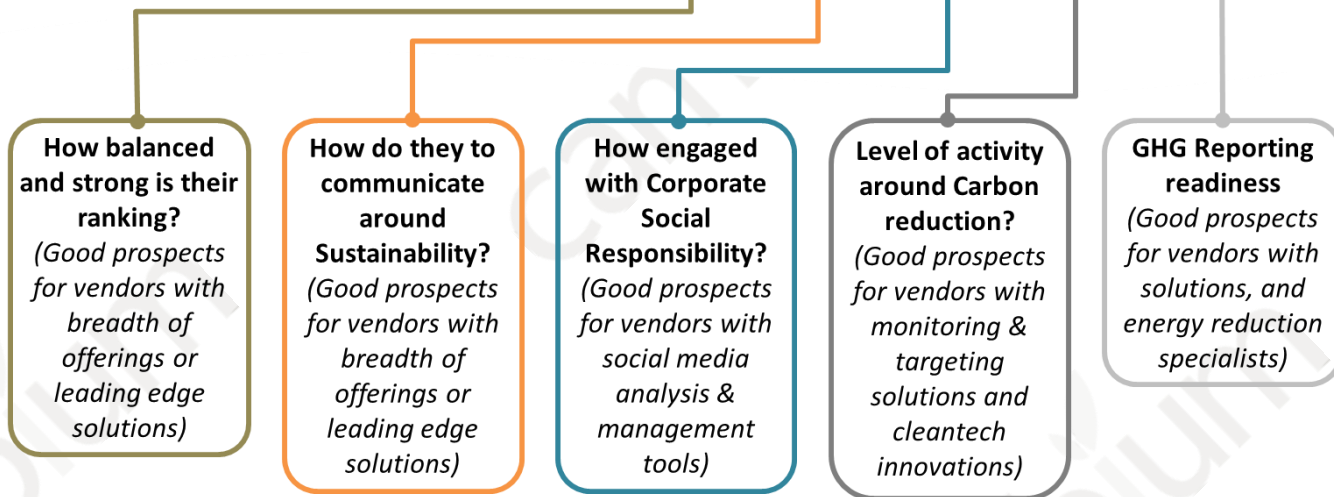

The table opposite is an example of the data that can be gathered using the Sustainability Prospector™. This proprietary tool uses web-based analysis over thousands of data points on a range of indicators developed over many years of research.

In this example the indicators surveyed includes the level of GHG reporting. In practice other indicators related to our client's specific products or services can be added to fine tune the search and analysis algorithms.

The output can be used to provide greater insight into the market readiness of individual organisations and sectors

Entity Name	Cambium Rank	Score	Maturity	Sus. Rank	CSR Rank	Carbon Rank	GHG Reporting
AstraZeneca	1	32	400%	4	10	2	A
Barclays	2	54	1000%	20	1	8	A
Centrica	3	65	433%	13	6	10	B
Diageo	4	66	1100%	44	5	3	A
Experian plc	5	75	220%	11	4	14	C
Fullers	6	77	383%	23	19	4	A
Glaxo	7	86	229%	16	25	5	A
